

LENEL CERTIFIED ELECTRONIC TECHNICIAN

We are recruiting on a special role for one of our clients in MD.

Individual needs to be Lenel certified to Gold or Master level. If you are Silver Level, client will absorb the cost of training you to Gold level.

This is an onsite full-time position. Work will include installation and configuration of headend computer systems, installation, termination, and calibration of field devices and sensors, and installation of communication infrastructure including conduit, enclosures and fiber optic cables. Assists in site surveys. Location is a new installation and issues are minimal, but any issue is critical to resolve quickly.

Must be able to pass an agency level security clearance: no criminal record, no back taxes, average credit rating.

Benefits: medical, dental, 401K, Vision, Service Van.

I would love to know you and give you some details on this search and the company. If this isn't the right fit, we can stay close for the future. Or if you know the right fit, please refer them.

Please reply with the best phone to call.
